

RESPONSIBLE DECLARATION FOR ADHESION TO THE COMMITMENT TO TOURISM SUSTAINABILITY REGIONS OF BARCELONA BIOSPHERE

Aware of the importance of maintaining sustainable tourism development, and assuming the principles and objectives specifically adopted at the 2015 World Summit on Sustainable Development, COP 21 and the World Charter for Sustainable Tourism + 20, CASA COLL I REGÀS is committed to carry out sustainable management of its activities, by adopting commitments aimed at preventing, eliminating or reducing the impact of our facilities and activities, both internal and external, as well as optimizing the sustainability of the establishment by improving its behavior with the environment.

In that same sense, our entity has adopted the following Responsible Tourism Policy, through which it undertakes to comply with the requirements established in the BIOSPHERE membership, which includes, among other things, the legal requirements that regulate the effects generated by tourist activity. .

Likewise, we are committed to motivating and training our staff with training and awareness-raising actions on the principles of Responsible Tourism, to promote good environmental practices in the environment and participate in external activities, and to report both internally and externally on progress and environmental actions of the company.

Likewise, our establishment expresses the express commitment to combating sexual exploitation or any other form of commercial exploitation and harassment, particularly of children, adolescents, women and minorities; and we are committed to adopting universal accessibility measures.

One of our main objectives is to perfect sustainable management, assuming commitments to continuous improvement in all areas of sustainability: social, economic and environmental, as well as customer satisfaction. To this end, projects for future expansions of facilities or activities will be subject to criteria of sustainability and efficiency in the use of resources.

This Responsible Tourism Policy will be updated whenever circumstances require it, adopting and publishing new sustainability objectives in both cases.
